
The Splice Tape which is used for various industry, for all kinds of carrier tape.

Our wide range of products are compatible with feeders from: Universal, Siemens, Panasonic, Juki, Fuji, Sony, Europlacer, Assembleion, Mydata, I-pulse, Tenryu, Yamaha, Dima, Philips, Manncorp, Műhlbauer, SMTECH/QUAD/TYCO, Samsung and most other brand.

It has good viscosity, weatherability and ultrathin characters.

Products advantage :

Easy operating ,and saving labours

High accuracy & reliability

Low cost ,high return

The glossy black ESD safe tape is our preferred stock item. ESD coating with a surface resistance $10^8\Omega$. All SMT splice tapes are made of 25µm PET film, with a total thickness of 53µm with adhesive layer included. As option 38 µm total thickness can be manufactured on request.

OEM ELECTRONICS

SMT Double Splice Tape 01 Series

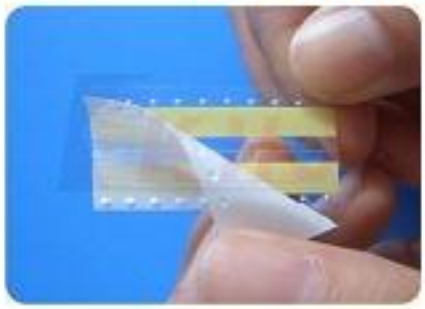
Feature :

Double splice tapes guarantee perfect and reliable joints in all kinds of paper carrier tape. Joining is accomplished without any tools or fixtures, with precise pitch spacing, using convenient, pre-cut lengths of tape.

SMS-01 Series:

P/N	Description of Goods	Quantity	Application
SMS-0108N	SMT Super Double Splice Tape 8mm	500pcs/box	For 8mm carrier tape
SMS-0108	SMT Double Splice Tape 8mm	500pcs /box	For 8mm carrier tape
SMS-0112	SMT Double Splice Tape 12mm	500pcs /box	For 12mm carrier tape
SMS-0116	SMT Double Splice Tape 16mm	500pcs /box	For 16mm carrier tape

Step 1: Put carrier tape into placement pin of cutter and cut the tape.



Step 2: Peel off the paper liner.

Step 3: The raised dots of the clear plastic carrier engage with the sprocket holes.

Step 4: Stick another pre-cut reel.

Step 5: Fold splice tape over connected tape.

Step 6: Peel off the plastic liner.
